

Cable ladder 3 m 200 mm

E-no — MP-no 102SR

Cable ladder made of recycled Sendzimir galvanized (20 µm) sheet steel suitable for environmental class max C2. The material is 78.7% recycled consumer-based scrap and is produced using only fossil-free energy sources. The pins are perforated for easy cable attachment, pin spacing: c-c 250 mm. The second pin at each end is closed. The perforated side allows for the installation of branches, angle brackets, etc. In addition, the shape of the side profile allows cables up to 19 mm in diameter to utilize over 98% of the ladder width. Breaking load: greater than or equal to 1.7 times the maximum load.
