

## Cable ladder 6 m 200 mm

E-no — MP-no 152S

Industrial ladder with thicker sheet metal and higher load-bearing capacity. These are suitable for larger spaces such as industrial and warehouse halls. Made of galvanized sheet metal (20 µm) and suitable for use in environmental class C2. This model features flat closed-rung steps with a center-to-center distance of 250 mm. The perforated side allows for the installation of branches, angle brackets, etc. Additionally, the profile shape allows cables up to 19 mm in diameter to utilize over 98% of the width of the steps. Breaking load: greater than or equal to 1.7 times the maximum load.
