

Cable ladder 6 m 500 mm

E-no — MP-no 155S

Industrial ladder with thicker sheet metal and higher load-bearing capacity. The cable ladder is made of Sendzimir galvanised sheet (20 µm), suitable for environmental class max C2. This model features flat closed-rung steps with a centre-to-centre distance of 250 mm. The perforated sides allow branches, angle brackets, etc. to be fitted. Furthermore, the side profile shape allows the use of cables up to 19 mm in diameter over 98% of the width of the ladder. Ultimate failure load: more than or equal to 1.7 times the maximum load.
