

Internal splice MP-S NB: Only MP-S Ladders

E-no – MP-no 108S

Internal splice for cable ladders type MP-S. Simplifies installation with built-in locking function, especially for long straight stretches. The splice is made of Sendzimir galvanised sheet (20 µm) and is suitable for environmental class max C2. The splice is used for whole ladders, but if cutting is necessary, it can be placed between two rungs to ensure the functionality is maintained. Meets requirements for equipotential bonding according to SS-EN 61537:2001. Patent pending 11163803.7.
