

Wall rail sandwich element 700 mm

E-no — MP-no 030S

Wall rail (length 700 mm) for mounting cantilever arms etc. on sandwich walls or lightweight concrete blocks. The bracket is mounted with sheet metal or lightweight concrete bolts, distributing the load over the surface. Together with a nut washer or T-bolt, this provides a flexible solution. Made of Sendzimir galvanised sheet (20 µm) and suitable for environmental class max C2. Consider the strength of the wall!
