

Mounting plate 200 mm

E-no — MP-no 207Z4

Mounting plate designed for installation of e.g. safety switches, etc. on vertical cable ladders. The mounting plate is made of a zinc-magnesium alloy (25 µm) and is suitable for use in environments up to classification C4. The advantage of this material is that it self-heals when cut, for example, and offers a more sustainable alternative to traditional hot-dip galvanizing. Suitable on all types of cable ladder. Plate thickness 1.5 mm. Fitted with bolt set 11 156 80 when used outdoors and 11 157 11 when used indoors.
