

Support yoke wire mesh tray 120-600 mm

E-no - MP-no 757V

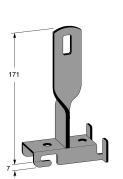

White-painted support yoke for wire mesh trays intended for widths 120-600 mm. The support yoke is made of powder-coated steel and is suitable for environmental class max C2. When mounting wire mesh trays in widths 300-600 mm, the support yoke can be supplemented with support to prevent the edges from bending down (11 166.69/11.166.76). Maximum load 80 kg. Ultimate failure load: 1.7 times the maximum load.
