

Support yoke wire mesh tray 120-600 mm

E-no — MP-no 757R

Support yoke for wire mesh trays intended for widths 120–600 mm. The support yoke is made of acid-resistant steel and is suitable for environmental class max C5-M. When mounting wire mesh trays in widths 300–600 mm, the support yoke can be supplemented with support to prevent the edges from bending down (11 166 72/11 166 73). Maximum load 80 kg. Ultimate failure load: 1.7 times the maximum load.
