

Roof support

E-no — MP-no PVX2

Roof support for cable laying on flat roofs. M8 screw for universal attachment included. Wire mesh tray 55-75 mm is screwed with universal bracket MP-731. For wider wire mesh trays, two parallel roof supports are used. Cable ladder is mounted against anchor rail which is attached to roof support at both ends. Mounting with angle bracket MP-900 or universal bracket MP-731 is possible. Also fits pipes 2 x \varnothing 16-32 mm or 1 x \varnothing 16-100 mm. Internal weight of about 1 kg. Both roof support and cable ties are UV resistant.
