

Luminaire rail 3 m 150 mm

E-no — MP-no 331V

White-painted luminaire rail with hole pattern for the most common 3- and 5-pin quick connectors on the market. The rail is made of powder-coated sheet metal and is suitable for environmental class max C2. Painted rails have unpainted ends to ensure good continuity across the splice for potential equalisation. Other lengths, optional colours and hot-dip galvanised rail can be offered on request. Bracket distance is determined by the length of the rail. 2 m rail = c-c 2 m; 3 m rail = c-c 3 m. A 6 m rail needs a wire suspension in the middle. These values apply at normal load.

Product details
