

# Z4R

## CABLE LADDERS IN NEW MATERIAL

Over 60% lower carbon footprint compared to our traditionally hot-dip galvanized cable ladders.

Material produced with 100% renewable energy. It's based on a high proportion of recycled steel and ore pellets melted in electric arc furnaces.

This is a project cable ladder – contact us at: [offert@mpbolagen.se](mailto:offert@mpbolagen.se)

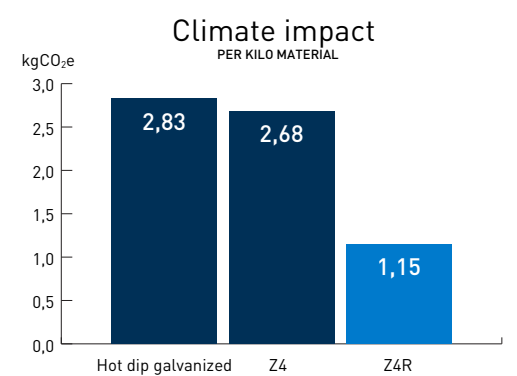

**C4** Max corrosion class C4.

**MP**bolagen

### Models

MP-Z4R – perforated profile and closed rungs.

MP-PZ4R – perforated profile and perforated rungs (the second and fourth rungs at each end are closed).

**MP**bolagen  
**REDUCED**
