

# Flex service pole with charging capabilities! for both USB-A and C

The new standard service pole, available in both elegant black and sleek white designs, offers a smart solution for connections. With two unshielded Cat6 data sockets and a power outlet with six sockets.

Art.no	Colour	E-nr
530V	White	11 787 88
530SV	Black	11 787 89

## Charger included

For charging mobile devices, we have equipped the service pole with a USB-A and C outlet. With a total power of 15W, it allows simultaneous charging of two devices.

Our service poles are made from low-carbon aluminum extracted and manufactured in a way that minimizes carbon emissions. Carbon dioxide emissions are reduced by 40 percent. Read more about this on our website.
